Probe with Manometer

Medical Gas Accessories

Probes with Manometers is designed for precise **gas flow control** in medical gas systems while allowing **pressure or vacuum levels** to be monitored directly at the point of use.

The **gas-specific connection** probe helps prevent incorrect connections, while the hose outlet enables quick and secure connection to patient devices and equipment.

Its compact design and integrated pressure/vacuum gauge provide controlled gas delivery in healthcare environments such as operating rooms, intensive care units, and treatment areas.

Available in **DIN, BS,** and **NF** configurations for different medical gas systems, including **O_2, N_2O, MA4, SA7, VAC, CO_2** and **N_2**.

Probe with Manometer

Can be connected directly to the gas outlet or mounted on a medical rail using a rail mounting adapter.

Real-time pressure or vacuum monitoring helps identify potential risks early, while the durable chrome-plated brass body supports long-term hygienic use in healthcare environments.

- **DIN – BS – NF Compatible**
  Multiple Standard Configurations
- **Corrosion Resistant**
  Chrome-Plated Brass Body
- **Precise Flow Control**
  Manual Flow Adjustment
- **Gas-Specific Indexing**
  Error-Proof Gas Connection
- **Easy Maintenance**
  Quick Calibration and Cleaning

Technical Details

- Annual calibration and pressure testing are recommended, with more frequent checks for high-use areas to support safe and reliable operation.
- The chrome-plated surface and simple body design allow easy cleaning and disinfection, while autoclavable components are optionally available for applications requiring higher sterilization levels.

General Features

Compliance	DIN - BS - NF
Medical Gases	O_2 – N_2O – MA4 – SA7 – VAC – CO_2 – N_2
Pressure Range	0 – 10 bar
Vacuum Range	0 – (–1) bar

Mechanical Features

Body Material	Chrome-Plated Brass
Flow Control	Manual
Gauge Type	Pressure / Vacuum
Mounting Options	Direct Outlet / Rail Mounting
Connection Type	Gas-Specific Probe
Outlet Type	Hose
Gas Identification Label	International Color Coding
